AUG 13 2001

Group 2100

Sir:

Please amend the above-identified application in the following manner:

IN THE CLAIMS:

1. (Amended) A system for publishing a message using a page builder tool, the page builder tool for providing a web page and linking the web page to a searchable database, the system comprising:

a message caching agent for receiving the message;

a message publishing agent coupled to the message cache and the page builder tool, the message publishing agent for retrieving the message from the message cache and allowing the message to be published on a web browser through the page builder tool.
